

R&D AI, GenAI, Data Consulting Practice

"In some cases, AI projects fail because the organization focuses more on using the latest and greatest technology than on solving real problems for their intended users." RAND Research Report, Aug 2024

AI will be the most transformative technology of the 21st century. It will affect every industry and aspect of our lives

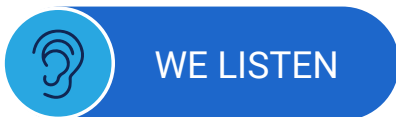

Jensen Huang
CEO at NVIDIA

Our Mission

20/15 Visioneers operates at the intersection of Science, Data, and Algorithms, providing pragmatic and reliable expertise that ensures our clients unlock the full potential of AI technologies, and maximize their AI investments.

By integrating AI, large language models (LLMs), as well as advanced data sets into your scientific workflows, we enhance and optimize your processes. Our tailored solutions don't just streamline operations – they give your software the extra boost needed to gain a competitive edge in today's challenging marketplace. Partnering with us means turning cutting-edge technologies into real-world results that drive growth and innovation.

Our Approach

WE LISTEN

Client Discussions

WE ADVISE

Assessment & Design Projects

WE SET VISION

White Papers

WE EDUCATE

Technology Guides

WE BUILD

Software Assets

WE DEPLOY

Custom Projects

How We Can Help You

**Consulting Projects,
Minimising Technical Debt**

Risk Assessment

Product Roadmap

Technology Planning

Implementation Plan

Vendor Selection

Business Process Mapping

**Custom Application
Development**

Custom tools to provide AI and GenAI value to your current workflows

Cost-effective, pragmatic approach to script

Benefits of Working With Us

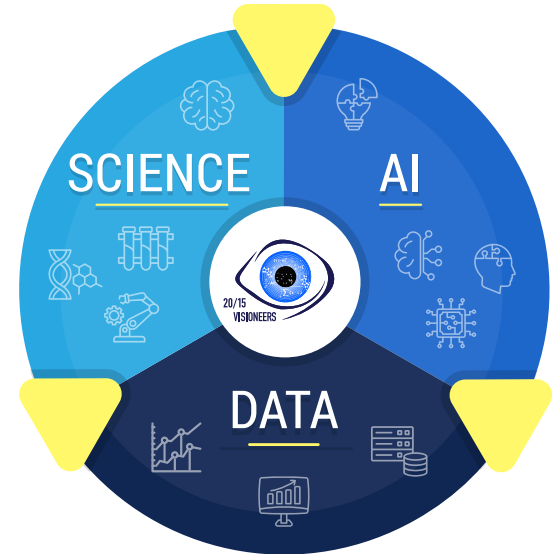

Pragmatic and objective advice from experienced industry veterans

Close integration/interaction with current informatics workflows

Rapid access to leverage large amounts of documents and datasets

Impactful scientific insights for your end-users

Private and cost effective, when and how you need it

Leadership Team

John Conway

FOUNDER & CHIEF
VISIONEER OFFICER

Raminderpal Singh, PhD

GLOBAL HEAD VISIONEER OF AI
AND GENAI PRACTICE

David Hessler

SENIOR SCIENTIFIC
DEVELOPMENT VISIONEER
